Her music is uplifting and powerful. Her lyrics are relevant and meaningful. Her storytelling is thoughtful and engaging. She's on a journey of adventure discovering jewels of wisdom on all seven continents, entertaining audiences around the world. A native of Vancouver, Canada, Robyn's musical education began with The Royal Conservatory in piano and voice, followed by a Degree in Music from the University of British Columbia. Her professional journey began with a 60 day adventure singing in Southeast Asia for the richest man in the world, a life altering experience. Living in a kingdom fuelled by power and excessive material wealth, her memory of time spent in notably one of the richest places in the world, is of the vivid and haunting impression of the many sad eyes she left behind, including her own. That engagement defined her career: to create songs that would inspire positive living and empowered action: *"Distinguished by a vivacious optimism and her assured voice."* ~ Tom Harrison, The Province, Vancouver

ROBYN'S MUSIC - Fusing stylings of jazz, pop, blues and country, Robyn's formal training in the classics further blends a contemporary pop writing and performance style that is uniquely Robyn. Her songs shine with soaring melodies and infectious grooves performed with heartfelt enthusiasm. Skilled with her elegant signature piano stylings and a vocal richness that ranges from intimate whispers to dynamic passion, she is her own artist: *"Her wealth of talents: a strong yet nuanced singing voice; colourful, jazz-flavoured piano work, innate charm, intelligence and good spirits"* ~ Peter Haas, Cabaret Scenes, NYC

With three self-penned albums, *Up Ahead*, *Connected*, and her latest release, *Sleep With Angels*, her travel adventures continue to fuel her songwriting. Visiting extraordinary places, highlights include: going behind the veil in the Middle East; experiencing the magnificent sand dunes in Africa and ice glaciers in Antarctica; walking through the cradle of civilization in Egypt and Israel; and so much more exploring land, sea and ice across the globe! The world and the collective wisdom and creativity from people she meets around the world inspire this award-winning songwriter: *"Insightful lyrics ... impressive vocal delivery ... delightful story songs"* ~ Mark Anthony Brennan, BC Musician Magazine
